

Joshua Godwin Mmbando

Frontend Developer · Graphic Designer · Biomedical Engineering Student

joshua050mmbando@gmail.com · Arusha, Tanzania · brancon.vercel.app · preetiedecor.com · flowconvertlab.com

PROFILE

18-year-old frontend developer and graphic designer studying Biomedical Engineering Technology (NTA Level 4) at Arusha Technical College, Tanzania. I build fast, considered web interfaces using React and Next.js — with four production sites live and deployed for real clients and businesses. I bring a design eye from years working in Adobe Photoshop and Illustrator, and I sit between engineering and design: I read a problem like an engineer and build the interface like someone who cares how it feels to use.

SKILLS

Frontend: React · Next.js 14 · TypeScript · Tailwind CSS · HTML5 · CSS3

Animation: GSAP · ScrollTrigger · Framer Motion · Lenis

Backend: Node.js · Python · REST APIs

Design: Adobe Photoshop · Adobe Illustrator · Figma

Tooling: Git · GitHub · Vercel · VS Code

PROJECTS

BRANCON Ltd — Corporate Website · brancon.vercel.app 2025

Multi-page corporate site for a Tanzanian agriculture, mining, and transportation company operating since 2018.

- Built full multi-page Next.js site: Home, About, Products, Services, Clients, and Contact.
- Handles real business content — commodity exports, client relationships, and service listings across three industries.
- Deployed live on Vercel, responsive across mobile and desktop.

PrettieDecor — Events & Decor Business Site · preetiedecor.com 2025 – 2026

Production website for a Tanzanian events decoration and styling business covering weddings, corporate events, and celebrations.

- Next.js site live on a custom domain at preetiedecor.com.
- Content includes blog (Tanzania wedding color trends, event planning guides), service pages, and a portfolio of decorated events.
- Built for a real client — design, development, content architecture, and deployment handled end-to-end.

FlowConvertLab — SaaS Marketing Site · flowconvertlab.com 2026

Smart link pages and resource hub for LiveChat affiliate partners — converts visitor traffic into customer signups.

- Full Next.js production site on a custom domain with SEO metadata, OG tags, and structured content architecture.
 - Sections: AI chatbot feature breakdown, live chat product review (4.6/5), tools directory, comparison pages, and blog.
 - Built for conversion: proactive chat flows, visitor insights copy, 200+ integration coverage, and affiliate disclosure compliance.
-

EDUCATION

NTA Level 4 — Biomedical Engineering Technology · Arusha Technical College 2024 – Present

- Core subjects: medical equipment technology (ECG, defibrillator, ultrasound, CT scanner, anaesthesia machines), electrical engineering, digital logic and combinational circuits, computer applications.
 - Practical documentation: EDAN SE-3 ECG machine, Canta oxygen concentrator, MTTS Colibri phototherapy unit.
-

ADDITIONAL

Languages: English (professional), Swahili (native)

Interests: Web animation, open-source tooling, anime, mobile gaming, personal development
